EDUCATION

BS Software Engineering Virtual University of Pakistan

10/2017 - 10/2021,

3.23/4

PROJECTS

Jumma Finder Mobile App

- It's purposes is to invite people to add their nearest mosque prayers timing specially prayer of jumma. I integrate google map api for finding longitude and latitude of location so that everyone can watch their nearest mosque prayer timing.

Pimlico Labs Website

- This website is for laboratory uses which offer pathology testing solutions across disciplines including clinical biochemistry, immunology, hematology, sexual health screening and molecular biology and allergy testing. We can add test categories and different types of tests. users can view test add to cart them and calculates bills.
